ABOUT ME

I am a computer science undergraduate eager to gain more experience and knowledge in the information technology sector.

EXPERIENCE

**FULL-STACK DEVELOPER / SECURITY &
RISK SOLUTIONS**
MAY 2021 – SEP 2021

Worked in collaboration with other departments to implement domain knowledge into systems to automate and speed up HR processes significantly.

ATTRACTIONS HOST / MFLG
MAY 2024 – PRESENT (PART-TIME)

Improved operational success by creating memorable guest experiences through attentive service and engaging communication.

EDUCATION

**BACHELOR'S IN COMPUTER SCIENCE /
NUS**
2024 - 2028

Currently completed the first semester of the 4-year program.

**DIPLOMA IN INFORMATION TECHNOLOGY /
NGEE ANN POLYTECHNIC**
2019 - 2022

Diploma in Information Technology, specializing in Full-Stack Development. Additionally learned Predictive Analytics and Deep Learning, Software Engineering, and Data Structures and Algorithms.

SKILLS

- Full-Stack Development
- DevOps workflows
- Predictive Analytics
- Software Development
- Self-Directed
- Communication

ACTIVITIES

I am a self-directed learner who enjoys creating and experimenting. I enjoy the process of creating digital solutions to problems that I face - I have self-taught myself several technologies and languages, using them to create websites or apps that I use personally.
